CARRANZA'S MESSAGE  
SAVED BLOODSHED  
IN HERMOSILLO

[By Leased Wire to Evening Herald.]  
Nogales, Sonora, Mexico, June 10.—How a message from General Carranza brought quiet to Hermosillo, the capital of Sonora, after Civil Governor Maytorena, with the aid of Yaqui Indians had gained the ascendancy over the military authorities under Col. Pelaz Calles, was detailed in dispatches which reached here today.

The crisis in Hermosillo was reached last Friday. Maytorena, retired into the governor's palace, surrounded by a loyal guard, while Calles and his followers held control of the remainder of the capital.

Bloodshed seemed imminent when Chief Urubalejo, with 1,000 Yaqui Indians, arrived in response to an appeal from Maytorena, who, with their advent, regained control of the situation. The Yaqui disarmed Calles, the members of his personal staff and many soldiers of the Thirteenth battalion. A number of the military leaders were imprisoned.

All this occurred without loss of a life but with the arrest of the editor of a newspaper which had supported Calles there came a change. The editor was dragged through the streets by soldiers and hustled to the jail, which was found in control of the guards from the Calles faction. He appealed to them to save him. They responded, attacked his captors and rescued him after several men had been killed and a number wounded. News of the situation in Hermosillo was telegraphed to Carranza, who sent a message declaring he supported Maytorena in the dissension. When this message was received Calles, a number of his personal friends and the members of the staff of the paper published by the editor whose arrest precipitated the bloodshed, departed from Hermosillo on special train for Nogales. Yesterday Calles started back to the capital with 200 men summoned from Cananea, but he gave no intimation of his plans.

One of Maytorena's first acts after gaining control of Hermosillo and a large part of Sonora as well, through Carranza's decision, was to free his political appointees who had been arrested by the military authorities and taken to Hermosillo to stand trial on various charges.

**REPUBLICAN HAS  
DEATH GRIP ON  
HONOLULU OFFICE**

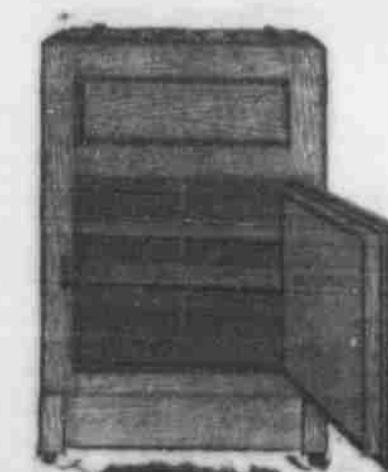

[By Leased Wire to Evening Herald.]  
Honolulu, T. H., June 10.—E. H. Stackable, collector of the port, received today from William G. McAdoo, secretary of the treasury, a cablegram requesting his immediate resignation.

Stackable said he would not comply. He insisted that he would not give up his office unless he was dismissed.

Stackable has been port collector of Honolulu since Hawaii became a part of the United States. He is a Republican. He was asked to resign about a month ago.

**NO CHARGES AGAINST HIM.**

Washington, June 10.—At the treasury department it was said there were no charges against Collector Stackable but that it was the purpose to supplement him with a collector more in harmony with the administration. According to practice a collector of customs who declines to resign may be removed by the president.

**REST OF THIS WEEK  
10 PER CENT OFF**

On all Refrigerators. Perfect ventilation white enamel inside, movable shelves.

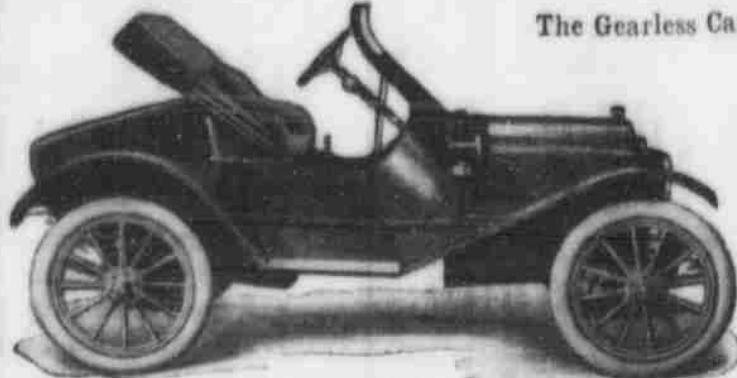

This Refrigerator will cut your ice bills one-half.

## FACTS UPON FACTS

Furnished convincing evidence of METZ all road efficiency. U. S. government engineers, employed at present on canal construction in eastern Washington, tested a number of makes of cars to find the car that would travel the rough roads of that section, and then selected, and purchased, the METZ "22."

In the Australian "Reliability Trials," Sydney to Melbourne, a four days' contest, the METZ "22" made a perfect performance, scoring 60 points out of a possible 60. And more at home in the Glidden Tour from Milwaukee to Glacier National Park, Mont., the three METZ cars being the ONLY cars that held perfect scores for the entire eight days of that contest.

The Gearless Car

Completely Equipped—Fully Guaranteed

One of the big features of the METZ "22" is its gearless transmission. With no clutch to slip and no gears to trip, it does away entirely with gear trouble.

The METZ "22" is extremely economical in operation.

It travels 28 to 32 miles on 1 gallon of gasoline, 100 miles on 1 pint of lubricating oil and often does 19,000 miles on a single set of tires.

METZ "Speedster."—Wire wheels, individual seats, Presto-lite tank, and other special features. \$100.00.

## CONCILIATORS TO START WORK IN COLORADO

**Men Named by President to  
Attempt Strike Settlement  
Leave for Coal Fields After  
Conference in Washington.**

[By Leased Wire to Evening Herald.]  
Washington, June 10.—Howell Davies, president of the Kentucky Mine Operators' Association, and William F. Farley of Birmingham, Ala., representing the Mine Workers, named by Secretary Wilson some time ago as conciliators in the Colorado strike troubles, will confer here tomorrow with the secretary and later leave for Colorado, visiting Ludlow and other points to take testimony. Their reports may not be made for several weeks.

**Have Already Visited War Zone.**

Denver, June 10.—Howell Davies and W. F. Farley spent several days in Colorado, investigating conditions relative to the coal miners' strike. After preliminary inquiries in Denver they went to Trinidad, where they inspected numerous mining camps in the southern Colorado district. At the time of their departure for Washington it was stated they would report to the secretary of labor while awaiting the preparation of some detailed information requested from the operators and the strikers, and later would return to Colorado to complete their investigation.

**WOULD BAR FOREIGN  
AGITATORS FROM FIELD**

Trinidad, Colo., June 10.—A dozen trade unionists have been celebrating the second anniversary of the establishment of a labor press in the country. Notwithstanding the most elaborate precautions taken by the police, meetings have been held in almost all factories, collections made and resolutions adopted in support of the press. In many factories workmen have resolved to devote to the press pond a whole day's wages and to try their best to increase the number of subscribers.

Since it was established, Truth, the organ of the trade unions, has had 26 issues confiscated and it has had to change its name half a dozen times, besides fines totaling \$4,000 have been paid; 16 of its editors have been imprisoned, and their sentences totalled 47 months.

In fact, throughout Russia labor organizations, through the interference of the police, are unable to exist openly. This is the opinion of many of the employees, is the cause of the frequent strikes and lack of understanding between them and their men. Should a dispute arise and the men appoint the delegates to meet the employers, those delegates are immediately arrested as the ring-leaders of some imaginary revolution, and is a consequence the negotiations come to nothing. The organizations have been driven to hold their meetings in secret and are practically ruled by secret committees. No man dare disobey the orders of these committees.

The perfect control exercised is shown by an incident freely quoted here. It was intimated that no work would be permitted on a casting required for a certain battleship. The casting traveled from one dockyard to another, and wherever it appeared the men refused to work on it. Finally the boycott was mysteriously removed and the work was speedily completed.

**DENY WILLIAMS HAS  
INSTRUCTIONS TO MIX  
IN ALBANIAN CRISIS**

[By Leased Wire to Evening Herald.]  
London, June 10.—A newspaper dispatch from Vienna today says George Fred Williams, American minister to Greece, has sent a circular letter to the representatives of the European powers, informing them that the government of the United States is ready to offer its good offices for the restoration of peace in Albania.

**Washington Denies Report.**

Washington, June 10.—At the state department it was said today no instructions had been given to Minister Williams to circulate the European powers offering the services of the United States as a mediator in Albania, and officials doubted the min-

isters with this, shouting "Hurrah for anarchy!"

Home, June 10.—Further outrages were committed today by strikers in various parts of Italy, who caused damage to several minor railroad stations. The authorities in consequence have extended their measures of protection and have posted troops and police to guard structures liable to attack by the strikers.

The workmen's movements was started on Monday when a general strike was declared as a protest against the repressive measures of the government in connection with the popular demonstrations at Ancona on Sunday, when several men were killed and wounded.

## ATTEMPT TO KILL BROTHER-IN-LAW IS CHARGE

**Apolinar Garcia's Wife Will  
Appear Against Him When  
He Is Arraigned; Both Men  
Wounded.**

Apolinar Garcia is held at the police station, charged with assault with intent to kill on Francisco Gomez, his brother-in-law.

He is to be arraigned before Justice of the Peace George H. Craig tomorrow morning, and the people say his wife will appear against him.

Garcia and Gomez fought last night, the police say, at the latter's home at 411 North Arno street. Garcia is said to have gone to the house after his wife, who is Gomez's sister.

Mrs. Garcia sent a call for the police, and Officers Salazar and Donahue responded. They found both men suffering from knife wounds. Garcia was cut about the face and thighs, and Gomez, in addition to a slashed wrist, had a slight stab wound directly over the heart. Dr. L. G. Rice, city physician, dressed their injuries. Neither was seriously hurt.

## SPECIALISTS WILL FORM FACULTY OF INSTITUTE

**Instructor in Physical Education  
Added to Force by Su-  
perintendent A. Montoya,  
Making Total of Six.**

A faculty composed entirely of specialists in their various departments will make up the teaching force of the Bernillo county teachers' institute, which opens in the Central school building Monday morning at 8 o'clock. Not only will the faculty be composed of specially trained teachers, but it will be the largest of any institute faculty in the state, with a total of six teachers regularly employed, and a number of special lecturers on various subjects.

County Superintendent Atanasio Montoya announced today that the institute faculty of Miss Jennie Y. Fleming, to be instructor in physical education, including folk-dancing, schoolroom games, outdoor games, schoolroom gymnastics, etc.

Miss Fleming, who now makes her home in Albuquerque, is a graduate of Meredith college, of Raleigh, N. C., and also is a graduate of the Pease normal school of gymnastics of Boston, where she received her special training. She has had wide teaching experience. With this department Superintendent Montoya is able to offer special instruction in physical culture teaching, music, drawing, domestic science, manual training, primary method; in fact, a thoroughly complete and up-to-date modern course.

A regular assembly period of forty minutes' duration will be held each morning at 11 o'clock during which a number of lectures on special educational subjects will appear.

Superintendent Montoya has spared no effort or expense to make the institute the most efficient county institute ever held in the state and his word promises to be thoroughly successful.

## MYSTERIOUS FIRE ON SANDIAS EXPLAINED

The blaze on the top of the main Sandia range last night, which attracted attention in Albuquerque and caused some uneasiness, has been explained.

Charles Boldt and family, who are visiting at the Ells ranch, camped last night on the rim rock on top of the range. They had arranged with friends in Albuquerque to signal their arrival at the camp by a bonfire. The signal was received, not only by the friends, but by the forest service fire officials, by Major Roppe, who thought his mine might be on fire, and by numerous spectators, who figured out every kind of explanation from a volcanic eruption up and down.

**A Modest Request.**

One young man who was highly sensitive about an impediment which he had in his speech went to a stammerers' institute and asked for a course of treatment. The professor asked him if he wanted a full course or a partial course.

"A p-p-partial course."

"To what extent would you like a partial course?"

"Enough so that wh-when I go to a florist's and ask for a c-c-c-chrysanth (whistle) p-m-mum, the thang won't w-will b-fore I g-get it!"

## PHOENIX READY TO SPEND \$2,500 ON CAMPAIGN

**Strong Effort to Land San-  
atorium; Latter More Impor-  
tant to City Than This  
Year's State Fair, Says Com-  
mitteeman.**

That Phoenix will spend \$2,500 in the effort to get the supreme council of the Loyal Order of Moose to choose the Arizona metropolis as the site for the proposed \$2,000,000 sanatorium was the statement made today by Dr. W. T. Salmon, member of the Commercial club committee appointed to work for the establishment of the institution here. He made the statement to indicate the vigorous nature of the rivalry Albuquerque faces in its effort to secure the sanatorium.

That the local Moose realize vigorous action is necessary on the part of Albuquerque to match the activity of other aspirants was indicated last night at a special meeting of the Albuquerque Lodge. A committee was appointed to confer with the city council and the Commercial club officials regarding the question of a delegation to represent Albuquerque at Denver June 22, when the supreme council of the Moose is expected to decide the site question. If the sending of representatives will promise any good, it is planned to have Albuquerquians on the scene to speak and work for this city. The committee is made up of Col. D. K. H. Sehner, Judge W. Beauchamp and A. C. Culver, the secretary of the lodge. They are expected to report on the attitude of the council and the club at a meeting of the lodge next Tuesday night.

Garcia and Gomez fought last night, the police say, at the latter's home at 411 North Arno street. Garcia is said to have gone to the house after his wife, who is Gomez's sister.

Mrs. Garcia sent a call for the police, and Officers Salazar and Donahue responded. They found both men suffering from knife wounds. Garcia was cut about the face and thighs, and Gomez, in addition to a slashed wrist, had a slight stab wound directly over the heart. Dr. L. G. Rice, city physician, dressed their injuries. Neither was seriously hurt.

Inquiries have been sent to Denver and to the supreme dictator seeking information on both points. The local lodge wishes to know whether, in the first place, there is really a chance to advance Albuquerque's cause at the meeting, and, secondly, if Albuquerque supporters, not members of the Moose lodge, will be given a hearing by the supreme council. So far no answers have been received. They were expected yesterday in time for the lodge meeting, but they not only didn't arrive then but hadn't come up to this afternoon.

As has been said, the supreme council is supposed to have narrowed choice for a site down to Albuquerque, Prescott and Phoenix. The understanding is that one of the three will be picked at the Denver meeting.

"We must not let up in our efforts to emphasize the superiority of Albuquerque as a site for a tuberculosis sanatorium," said Dr. Salmon today. Dr. Salmon is an active member of the Moose, as well as a member of the Commercial club committee.

"Phoenix will spend \$2,500," continued Dr. Salmon. "Now, it isn't necessary for Albuquerque to spend any such sum, but to indicate the importance of the matter I'll say without reservation that it would be far better for the development and advancement of this city to forgo the state fair this year and use all the money to be spent on it in this site campaign, rather than lose the sanatorium. What a permanent institution of that size means in the way of general business growth and civic prestige is impossible to indicate offhand. This is the biggest single thing Albuquerque has had a chance to acquire since the coming of the railroad.

"And Albuquerque should have it as a professional man, now, and not merely as a citizen of the city, that Albuquerque is the proper place for a sanatorium. It is the ideal site for a tuberculosis sanatorium, and the supreme council will conserve the welfare of their sick brethren if they order the sanatorium placed here. I would wish and work to have the institution established here if I were to leave Albuquerque for good tomorrow and never expected to live here again, not only because I would like to see Albuquerque, but because this is the best place for a sanatorium."

Dr. Salmon said he expected an answer to inquiry sent to Denver regarding the meeting of June 22 in this evening's mail—had been looking for it, in fact, in every mail for two days. When it comes, it may shed important light on the question of sending representatives to Denver.

## COMMITTEES REPORT ABOUT \$4,000 FOR STATE FAIR FUND

Twelve of the sixteen block committees appointed to canvas for the state fair reported at a meeting at the Commercial club last night. Their returns showed a total of \$4,000 approximately. Five thousand dollars is sought to match the state appropriation of like amount. No representatives from the other four committees were at the meeting, as Secretary Tom Binkert of the fair association doesn't know how much they have secured.

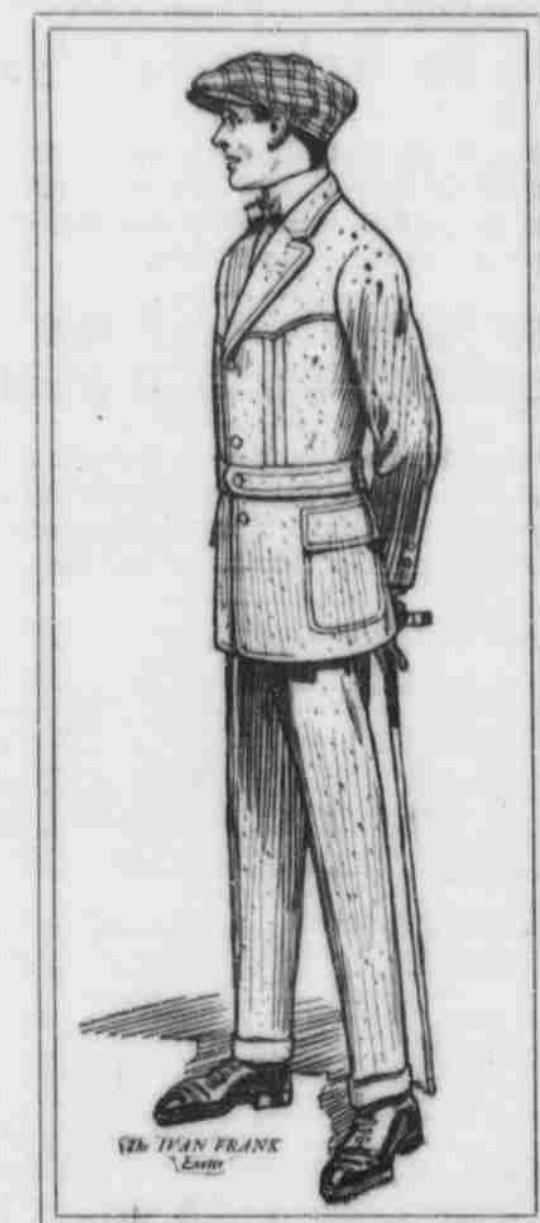

Another meeting is to be held, and the committees which haven't turned in a statement yet are expected to turn more than make up the \$1,000 lacking.

"A p-p-partial course."

"To what extent would you like a partial course?"

"Enough so that wh-when I go to a florist's and ask for a c-c-c-chrysanth (whistle) p-m-mum, the thang won't w-will b-fore I g-get it!"

Nowhere in the paper  
is there better news for  
young men—

Than the statement that we have just opened up a fine new lot of Norfolk Suits. They include home-spun effects, gray flannels, fancy mixed fabrics.

Every suit made especially for this store with a view to backing up our printed claim of proving better suits than can be had anywhere else for the same price. These New Suits, "Frankel 15" are dandies at

\$15.00

## New Spring Shoes

Our Shoe Department carries any style of shoe you may desire in all lasts and leathers, in Gun Metal, Tan Calf, Rubber Soles, Vici Kid or Patent, for both young and old at reasonably low prices.
